## Trade-In Information

- Trade-in details
- Full trade in value is provided for units in pristine working conditions for 14/28 vdc units with no worn or sticky buttons, no screen damage, scratches, spiders or delamination. We have 4 tiers of trade in value for 430W/530W
- Grade AA trade in - A pristine airworthy condition, dual voltage 14/28 vdc WAAS unit with no damage scratches, fully operational with and which includes an 8130 from a Garmin authorized repair station signed less than 30 days old.
  - 530W \$5500 / 430W \$4500
- Grade A trade in - A pristine airworthy condition, dual voltage 14/28 vdc WAAS unit with no damage, scratches, and fully operational.
  - 530W \$5000 / 430W \$4000
- Grade B trade in - An airworthy condition, dual voltage 14/28 vdc WAAS unit with light button wear or scratches, and fully operational.
  - 530W \$4500 / 430W \$3500
- Grade C trade in - A complete airworthy or non-airworthy condition, dual voltage 14/28 vdc unit with screen damage, light button wear or sticky buttons or scratches, that powers up for bench test but may fail one or more features.
  - 530W \$2500 / 430W \$1500 / 530 \$1750 / 430 \$1000 / 28vdc only deduct \$1500

## Rapid Install Information

- Eligible units
  - GNS 430 or 430W R&R with IFD 440 with identical WAAS Configuration
  - GNS 530 or 530W R&R with IFD 540 with identical WAAS Configuration
  - GMA 340 or PS8000 R&R AMX240
- WAAS Config. IFD will be setup to mimick the unit it replaces. ie 430 non waas will be replaced with 440 in non-waas configuration.
- No optional features will be enabled unless the wiring already exists. (For example many GNS installations are not wired for Terrain Audio alerts)
- Buyer agrees to assist and obtain configuration data in advance.
- GARMIN GTX 345 USERS There is a few interconnect wires that have to be moved in 9 of 10 aircraft thus I have to get into the GTX 345 pins. and requires a bit more time.

## Rapid Install Fixed Pricing

Single IFD \$500 Dual IFD \$850 IFD(s) with GTX 345 add \$500 AMX240 \$150 Entegra MFD Update \$400

This allows you to save installation cost and do the antenna upgrade or optional feature upgrade with your next annual or avionics upgrade. No reason to open the plane or panel. You do sacrifice some optional features but at a significant cost savings.
